Description of Issue:

Based on customer feedback a redesign of the ground handling lug attachment points will be required to prevent the skidtube from being damaged while ground handling the aircraft.

A repair procedure (DSI 9775-011) is being developed to support customers that currently have any of the above mentioned p/n's and will be released on ECN 17-545

Until the redesign is complete and released on ECN 17-547 do not ship or manufacture any of the above mentioned part numbers.

Please contact Michael or Nazim in engineering with any questions
